

Career Development Bridge Funding Award: K Bridge

The mission of the Rheumatology Research Foundation is to advance research and training to improve the health of people with rheumatic disease.

The purpose of this award is to provide bridge funding for promising investigators as they are revising outstanding individual career development awards (i.e., NIH K series awards or VA CDA-2 awards or any equivalent career development awards). Through this bridge funding award, the Foundation plans to support young faculty members so that they have the highest likelihood of achieving success in obtaining longer term career development awards.

Award Amount: Up to \$75,000 for 1 year

All applications must be submitted by 5:00 pm ET on the deadline day via the online application at <http://app.wizehive.com/apps/kbridge>.

Applications are accepted multiple times per year as detailed below:

Cycle	Applications Due	Notifications
I	June 1	June 15
II	October 2	October 16

Guidelines

All award recipients must abide by Foundation Awards and Grants Policies. A list of current policies is available at www.rheumresearch.org.

Eligibility

- All applicants must meet citizenship/permanent resident status and other eligibility requirements as outlined in the [Awards and Grants policies](#).
- Applicants must be ACR or ARHP members with an MD, DO, PhD or equivalent doctoral level degree from an accredited institution.

<p style="text-align: center;">ACR members must meet the following criteria:</p>	<p style="text-align: center;">ARHP members must meet the following criteria:</p>
<ul style="list-style-type: none"> • Applicants must have received a priority score, summary statement, and funding decision on their NIH K08, K23, K25, K99/R00, or VA CDA-2 award. Applicants whose career development applications were unscored are not eligible. • Have earned a DO, MD, MD/PhD, or DO/PhD degree or be currently enrolled in an ACGME accredited clinical training program and have completed at least one year of training by the start of the award term • MDs or DOs who are not licensed to perform clinical care in the U.S. may not apply. 	<ul style="list-style-type: none"> • Applicants must have received a priority score, summary statement, and funding decision on their on their NIH K01, K08, K23, K25, K99/R00, or VA CDA-2 award. Applicants whose career development applications were unscored are not eligible. • Have earned a PhD, DSc, or equivalent doctoral degree

- The Foundation does not currently support PhD's working on basic science research.
- Bridge funds are not intended to bridge the period between review and funding.
- Previous recipients of this award are not eligible to apply.
- **In addition to an excellent application, applicants must be capable of becoming independent researchers with a clear and firm institutional commitment to their career development, including a faculty position and other supporting resources.**

Review Criteria

All applications will undergo peer review and final funding decisions will be made by the Foundation Scientific Advisory Council. Applications will be reviewed on the following criteria:

- **Relevance of the proposal to the Foundation's mission to improve the health of people with rheumatic disease**
- Demonstrated experience and productivity as a rheumatology fellow and/or junior faculty member
- Having obtained a priority score and critique/summary statement from NIH/VA study section
- Strategy to address comments in the critique/summary statement
- Evidence of strong scientific and career mentoring
- Demonstration of institutional support

Applicants will be notified of their status within two weeks of the application deadline.

Award Terms and Funding

The award term is a maximum of one year at up to \$75,000 in direct costs per year. The amount of the award can be divided between salary and fringe benefits and/or research costs, up to a maximum of \$25,000 research costs. The total salary requested must be based on a full-time, 12-month faculty appointment requiring the candidate to devote a minimum of 75% of full-time professional effort to conducting research with the remaining effort being devoted to activities related to the development of a successful research career. **The Foundation does not allow indirect costs to the institution through this mechanism.**

Payment will be made in two equal installments. The first payment will be released within 2 weeks of award notification pending receipt of contractual documents, and the second payment will be made six months thereafter.

The grant is not renewable. If an applicant receives NIH/VA or another equivalent award during the bridge funding award term, the applicant must notify the Foundation and return the unused portion of the Foundation bridge funding award.

Recipients must notify the Foundation when they re-submit their application to the NIH or VA. Re-submission is expected during the bridge funding period. Recipients will provide the Foundation with a six month progress reports on the progress of the research project(s) and resubmission. **Recipients must demonstrate significant progress in generating preliminary data and revising their grant proposal in the first six months to receive additional funding.**

Application Instructions

Before starting the online application, please read the [Instructions for All Awards](#).

Applicant Information

You will be asked to confirm your eligibility and provide contact information in this section. In addition to the applicant information requested above, you will be asked to upload the following documents:

Biosketch in [NIH Format](#)

Limit to five pages; should include any pending support.

Project Information

The information in this section is general information about the grant submission.

- **Project Title (limit to 200 characters)**
Make your title specific and detailed. It should clearly state the topic of your proposal.
- **Abstract (limit to 300 words)**
Succinctly describe the hypothesis to be tested, the specific aims or global objectives of the project and the expected results.

➤ **Project Narrative (2-3 sentences)**

Briefly describe how your proposed project is relevant to the Foundation's mission to improve the health of people with rheumatic disease.

Specifically explain how your project will address at least one of the following:

- Increase patient access to care
- Develop future treatments and cures
- Demonstrate or improve the value of rheumatology care
- Expand the impact of rheumatology.

In this section, be succinct and use plain language that can be understood by a lay audience. The Project Narrative is made public for all awarded grants and used by the Foundation for marketing efforts.

➤ **Scientific Category**

Please select one from the dropdown options. This will be used to assign your application to the appropriate study section.

➤ **Primary Study Material and Method**

Please select one or more of the dropdown options in the online application. This will be used to assign your application to the appropriate study section.

➤ **Research Category and Classification**

Information provided in this section will help to ensure each application is assigned to the most appropriate study section.

➤ **Keywords**

Choose three keywords that accurately describe the project. If the application focuses on a specific disease, please include it as a keyword.

Research Award Assurance

By checking this box, the applicant assures that the proposal is in compliance with institutional guidelines as provided by the sponsoring institution's clinical and research review boards. All research proposals including human subjects, laboratory animals and recombinant DNA techniques must show documented compliance with institutional guidelines. Copies of approval notices by the institutions IRB, IACUC and/or biosafety committees must be provided as appropriate once awarded.

Required Documents

Please upload the following:

- **NIH/VA Face Page**
As submitted in original application.
- **NIH/VA Summary Sheets**
- **Budget and Budget Justification**
Use NIH PHS 398 style budget. Note: indirect costs are not allowed.
- **Statement from Applicant and Mentor**
Four pages maximum. The statement should outline the applicant's strategy for a response to the NIH/VA critique in a substantive and meaningful way that will result in re-submission during the period of bridge funding. This should include the one-page "Introduction to Application" that the applicant plans to submit with the K grant resubmission, plus up to 3 pages of supporting information detailing plans for acquiring specific preliminary data to be included in the K grant resubmission. The statement should outline the applicant's strategy for a response to the NIH/VA critique in a substantive and meaningful way that will result in re-submission during the period of bridge funding. Include timeline for resubmission.
- **Letter of Institutional Support**
The department chair must provide evidence of adequate institutional support and protected time to allow completion of the proposed work and submission of an application for independent research funding. The institution must agree to protect at least 75% of the applicant's time and effort for research. The amount of additional salary support from the institution should be stated. The letter should explicitly state how the institution will support the applicant through the process of competing for career development support.
