Advancing Treatment | Finding Cures

## Dr. Ephraim P. Engleman Resident Research Preceptorship\* / Resident Research Preceptorship

The mission of the Rheumatology Research Foundation is to advance research and training to improve the health of people with rheumatic diseases.

The purpose of the Resident Research Preceptorship is to introduce residents to the specialty of rheumatology by supporting a full-time research experience, with the goal of attracting promising physician scientists to the field of rheumatology.

**Award Amount:** \$15,000 for a three-month research preceptorship, to be completed in reasonable portions within 12 months of award start date.

*\*The Dr. Ephraim P. Engleman Resident Research Preceptorship is allotted to fund only one (1) recipient per year; all other qualified applicants will receive the Resident Research Preceptorship.*

All applications must be submitted by 5:00 PM ET on the deadline through Zengine at <https://webportalapp.com/sp/fy2020rrp>

### Upcoming applications deadlines as detailed below:

Applications Due	Notifications
May 1, 2019	June 17, 2019
August 1, 2019	September 16, 2019
November 1, 2019	December 16, 2019
February 3, 2020	March 16, 2020

### Guidelines

All award recipients must abide by Foundation [Awards and Grants Policies](#) at all times.

If you have any questions about your eligibility or submitting your application, please contact Award & Grants staff at 404-365-1373 or [Foundation@rheumatology.org](mailto:Foundation@rheumatology.org).

## Eligibility

- Preceptor must meet citizenship and other eligibility requirements as outlined in the Awards and Grants policies.
- Preceptor must be an ACR member at the time of submission and for the duration of the award (residents are not required to be members).
- A preceptor may be eligible to receive the award multiple times; however, they must work with a different resident each time. Previous resident participants are not eligible.
- Residents currently enrolled in an ACGME-accredited training program in internal medicine or pediatrics (med/peds) are eligible.
- Residents may apply during any year of their residency and must have identified a research preceptor by the time of application.
- The Preceptor supervising the resident must be a faculty member actively engaged in basic or clinical research relevant to rheumatology with a strong record of peer-reviewed research.
- Preceptors are responsible for approving the research plan.
- The award must be completed during the time frame of the approved residency.

## Review Criteria

Each application will be reviewed on the following criteria:

1. Scientific merit and relevance to rheumatic disease research (clinical and basic science)
2. Preceptor's credentials as related to the project and previous experience as a mentor
3. Quality of the mentorship environment provided by the preceptor
4. Appropriateness and feasibility of the resident's role in the project.
5. Likelihood that the resident will apply to a rheumatology fellowship program

Awardees will be notified within 8 weeks of the deadline and all award payments will be made within 2 weeks receipt of required paperwork.

## Award Terms and Funding

Residents will be allowed to serve the three-month preceptorship in reasonable portions throughout one academic year. Specific starting and ending dates should be provided by the applicant with the understanding that the total time commitment must sum to 3 months; the proposed training period should not be divided into individual blocks of time less than one month in duration.

The applicant must present a budget not to exceed \$15,000. Funds may be used to offset resident salary (including fringe benefits not to exceed 30%), related laboratory/ research expenses, appropriate living expenses (if the experience is off-site), or other reasonable and appropriate institutional expenses. No institutional indirect support will be given. Applicants should include expenses up to \$2,000 in travel expenses to attend the ACR/ARP Annual Meeting in the budget. All funds must be expended within one fiscal year. The project must be completed after the award start date issued.

#### **Funding Source**

\*Funding for one award per year is made possible through an endowment from Dr. Ephraim P. Engleman.

### **Guidelines**

Before starting the online application, please read the [Instructions for All Awards](#).

### **Applicant Information**

You will be asked to confirm your eligibility and provide contact information in this section. In addition to the applicant information requested, you will be asked to upload the following documents:

#### **Preceptor Biosketch in NIH Format**

Limit to 5 pages; should include any pending support.

#### **Resident Biosketch in NIH Format**

Limit to 5 pages; should include any pending support.

### **Project Information**

#### **Preceptorship Logistics**

- Proposed start and end date- 3 months
- Institution where project will take place
- Project Title

## Required Documents

### Project Proposal

Limit to 3 pages.

- a. Description of resident's current and future research interests.
- b. State specific aims of the proposed project and address how each aim will be accomplished during the preceptorship.
- c. Goals and expectations to be achieved in the preceptorship. Include research seminar(s) attendance; rheumatology rounds; provisions for relevant coursework; or participation in research activities.
- d. Description of preceptor's previous mentoring experience (past five years). Please include any awards or recognition received as well as any teaching activities.
- e. Provide a listing of other faculty/investigators that the resident is likely to interact with during the research rotation. Please include names, explanation of relationship to preceptor or preceptor's institution and research interests.

### Letter of Recommendation

Limit to 1 page.

A letter of recommendation is required from the preceptor describing the institutional research environment (i.e., potential interactions with other research trainees, other laboratories, etc.) and any proposed plans/experiences intended for the resident during this preceptorship including research seminar(s) attendance, rheumatology rounds, and provisions for relevant coursework or participation in research activities.

### Proposed Budget

Use the budget template provided below and submit a budget for up to \$15,000. Funds may be used to offset resident salary and related laboratory/ research expenses. Registration for ACR/ARP Annual Meeting is complementary for all residents; however fees and travel expenses to the ACR/ARP Annual Meeting should be included.

### Statement of the Preceptor

A statement from the preceptor is required, with verification of the resident's current status and confirmation that the resident will be relinquished from clinical duties during the three-month research elective. Description of past research and mentoring activities should be included.
