

Fellowship Training Award

The mission of the Rheumatology Research Foundation is to advance research and training to improve the health of people with rheumatic diseases.

The purpose of this award is to help ensure an adequate supply of (a) rheumatology providers meeting the needs of children and adults with rheumatic diseases in all areas of the country and (b) rheumatology educators and investigators to train future clinicians and advance research in rheumatic and musculoskeletal diseases. The Fellowship Training Award may be used to support the salary of any fellow in an ACGME-accredited rheumatology fellowship training program.

Annually, one Fellowship Training Award will be designated as a *Paula de Merieux Fellowship Training Award*. Established with a generous commitment by Paula de Merieux, MD, FRCP, this award designation supports a trainee from a racial and ethnic population that is underrepresented in the medical profession or is a woman.

Note: New fellowship training programs or programs that would utilize these grant funds to fill a previously unfilled fellowship slot or creation of a new slot should consider applying for the [Fellowship Training Award- Workforce Expansion](#).

Award Amount: \$50,000 per year

Award Duration: 2 years for adult training programs (maximum of \$100,000) and 3 years for pediatric training programs (maximum of \$150,000)

All applications must be submitted online by 5:00 PM ET on the deadline day through ProposalCentral at: [Proposal Central](#).

Application Opens
April 1, 2023
Application Deadline
June 1, 2023
Notification
September 1, 2023
Award Term Begins
July 1, 2024

Guidelines

All award recipients must abide by Foundation [Awards and Grants Policies](#) at all times.

Eligibility

- Applicant (Program Director) must be an ACR or ARP member at the time of submission and for the duration of the award.
- Only Program Directors at ACGME-accredited institutions in good standing may apply.
- The rheumatology fellowship training Program Director at the institution will be responsible for the overall direction, management and administration of the program.
- By submitting an application, the Program Director and sponsoring institution agree funds will be used ONLY for salary support of a fellow in their first or second year (or third year fellow in pediatric rheumatology).
- Multiple applications from a single institution will not be permitted unless they are for separate training programs (e.g., adult and pediatric rheumatology).
- Programs may not apply for the Fellowship Training Award and the Fellowship Training Award for Workforce Expansion within the same application cycle.
- Programs may not be active recipients of the Fellowship Training Award and the Fellowship Training Award for Workforce Expansion at the same time.
- There are no citizenship restrictions for supported fellows.

If you have questions about your eligibility, please inquire by email to foundation@rheumatology.org or 404-365-1373 before preparing your application.

Review Criteria

Applications will be reviewed based on all components of the proposal with emphasis being placed on the quality of fellowship training program, including:

- Academic and/or clinical quality
- Success in achieving the goals of the training program
- Demonstrated financial need

The additional considerations below will be taken into account while applications are under review. Preference may be given to institutions meeting the following criteria:

- Programs which have not previously received a Fellowship Training Award from the Foundation
- Programs within geographically underserved areas
- Programs with a track record of training fellows from [URiM](#) (underrepresented in medicine) backgrounds.

All applications undergo rigorous peer review in their assigned study section and are scored and ranked according to the review criteria and overall merit of the proposal. Preference will be given to programs not supported by fellowship training awards given by other organizations. All study section recommendations are sent to the Foundation's Scientific Advisory Council for review before being presented to the Foundation's Board of Directors for final approval.

Award Terms and Funding

This is a two-year award for Adult programs, and a three-year award for Pediatric programs. No trainee may be appointed for less than 12 months during the period of appointment. Upon receipt of this award, the institution must complete contractual documents, including a statement assuring that funds will be used for salary support of a fellow in their first or second year (or third year pediatrics). Funding will not be released until the Foundation receives these documents.

Recipients will receive \$50,000 to support the salary and fringe benefits of a trainee. The award is paid directly to the sponsoring institution in two equal installments annually in July and January. Other trainee costs are to be incurred by the recipient's institution.

At the close of the award term, the recipient must provide the Foundation with a final financial reconciliation. All unexpended funds must be returned to the Foundation.

Funding Sources

- Funding for the Fellowship Training Award is made possible in part through the financial support of Amgen, Inc.
- The *State of Texas Association of Rheumatologists Fellowship Training Award Endowment* provides support annually for one award at a qualifying ACGME-accredited adult rheumatology fellowship training program in the state of Texas.
- Funding for the *Paula de Merieux Fellowship Training Award* is made possible in part by an endowment from the Paula de Merieux estate.

Application Instructions

Before starting the online application, you will be required to create a Professional Profile in ProposalCentral, if you have not already. To do so, visit [this link](#) to begin creating your account.

All files must be saved as a PDF. Documents that do not have a required template should be formatted with ½ inch margin, 11-point Arial Font, and single-spacing (does not apply to figures and tables). All applications and documents must be written in English and avoid use of jargon or abbreviations. If terms are not universally known, spell out the term the first time it is used and note the appropriate abbreviation in parentheses. The acronym may be used thereafter.

Program Information

You will be asked to list the Institution name, program type (pediatric/adult), and confirm eligibility in this section. You will also be asked to indicate which years your institution has received a Rheumatology Research Foundation Fellowship Training Award (including Paula de Merieux Fellowship Training Award) in the last 5 academic years. Please include all years that apply.

Applicant/Program Director

You will be asked to provide contact information in this section, and to upload the **Program Director's biosketch** in [NIH format](#) (limited to 5 pages and should include any pending support).

Program Details

Describe the fellowship training program, including the following:

- A. Goals of the training program and success in achieving those goals **(limit 3,500 characters including spaces)**
- B. Description of program **(limit 7,500 characters including spaces)** including:
 - Participating institutions
 - Patient population
 - Curriculum
 - Areas of strength
- C. Number of ACGME-approved training slots, number of slots entered into the NRMP match, fill rates for the past 5 years, and any plans for future growth/support **(limit 1,500 characters including spaces)**
- D. Brief Statement of financial need and the impact the award will have on the training program **(limit 1,500 characters including spaces)**; there is no need to duplicate information here that you have included in the “fellowship positions questionnaire” at the end of this application).

- E. Evidence that you are in a geographically underserved area (**limit 2,500 characters including spaces**). **If this does not apply to your program, please leave this section blank.**

Examples that may be referred to in this section include:

- Proximity to next nearest training program
- Number of practicing rheumatologists within a 50-mile radius, a ratio of providers to potential patients and/or wait times in your practice for a new patient visit
- Catchment area, typical distance travelled by patients to see a rheumatologist
- Reference to [IDeA eligible states](#) (A list generated via the NIH's Institutional Development Award)
- Reference to [HRSA shortage areas](#) (A list generated by the Health Resources and Services Administration)

- F. Evidence that your program has a history of commitment to medical education and medicine-related careers for individuals from racial and ethnic populations that are underrepresented in the medical profession relative to their numbers in the general population (**limit 2,500 characters including spaces**). **If this does not apply to your program, please leave this section blank.**

Fellowship Positions Questionnaire

Complete the Fellowship Positions Questionnaire by entering information directly into the application. Percentage of funding for the upcoming year must add up to 100%.

Required Documents

Publications List

List publications that include rheumatology fellows among the authors within the last five years. **Please bold each Fellow's name in the author listing.** Only include publications that resulted from work done during the fellowship, not as a resident or junior faculty member. Papers and abstracts should be separated.

Tables completed as a part of an application to other funding agencies will be accepted (e.g. NIH T32)

Faculty Information Table

Download, complete and submit the Faculty Information Table for all faculty members who will have significant interaction with the fellows. See example of the table below.

Tables completed as part of an application to other funding agencies will be accepted (e.g., NIH T32).

Fellow Graduates Table

Download, complete and submit the Fellow Graduates Table. See example of the table below.

Tables completed as part of an application to other funding agencies will be accepted (e.g. NIH T32)

Letter of Institutional Support

The division chief, department chair, or equivalent institutional official must provide written assurance of the following:

- The quality of the training program
- Clear support for the program, Program Director and trainees
- Means of funding remaining salary (how the remaining funding for the trainee will be covered in the award cycle)

Additional Uploads

Additional documents which support the application may be uploaded. Limit 10 pages. Means of funding and population information should NOT be in appendix.

Faculty Information Table

Please use the template below and add/delete rows as needed. Include a detailed description of each faculty member's involvement in the training program and their specific contributions. Tables completed as part of an application to other funding agencies will also be accepted (e.g., NIH T32).

Full name with credentials	Role in training program	Description of involvement
1.		
2.		
3.		
4.		
5.		
6.		

Fellow Graduates Table

Provide the requested information on fellow graduates from the last five years. Please use the template below and add/delete rows as needed. Tables completed as part of an application to other funding agencies will also be accepted (e.g., NIH T32).

Fellow's full name with credentials	Career choice and current location	Years in training program	<u>Rheumatology</u> ABIM/ABP status	First time pass? (Yes/No)
1. Joseph A. Fellow, MPH, MD	Rheumatology (Adult or Peds) and Clinical Immunology, University of Florida	2012-2014	Rheum. Boards 2014/ Did Not Pass Rheum. Boards 2014 / Passed Certified 2015/Expires 2025	No
